1 Introducción

A financial firm needs to make a promotion for clients whose obligation payments over the last three months did not exceed 5 days of overdue. Each loan has a duration of three months. Using the data from the last cohort, where the three months are available, identify the clients with less than 5 days of overdue.

Using the datasets:

- Month 1 ([here](#))
- Month 2 ([Click here](#))
- Month 3 ([Click here](#))
