A hat store has different product lines with different references. For instance, the product line **Baseball Caps** is stored in the system with the code **B**, and a particular reference could be **B6**.

The following table contains all product lines handled by the store.

Code	Product Line
A	Athletic Caps
B	Baseball Caps
C	Cowboy Hats
D	Dress Hats
E	Embroidered Caps
F	Fedora Hats
G	Golf Caps
H	Headwear Accessories
I	Infant Hats
J	Jogging Caps
K	Knitted Beanies

- Determine the top 3 product lines in which customers spend the most money.
